**Philosophy:** We offer a competitive and fun environment where your daughter will enjoy competing at a high level not only in games, but in practices as well. At Xcel we believe that with support, encouragement, discipline, patience, and overall balance; your student athlete will have the ability to play at a high level. Our goal is to prepare your daughter for the next level; whether that is her middle school, high school, or college program.

**Playing Time:** Playing time is a concern that arises nearly every season. It is important that a player trust her coach. Coaches are very cognizant of playing time and want each player to have the opportunity to play successfully. If a player works hard and demonstrates in practice the ability to perform the skills at the necessary level to play the game, she will be given the opportunity to play in a match. When given the opportunity to play, each player must bring to the court the skills that she demonstrated in practice that earned the playing time. If play in the game does not match her success during practice, then she must rededicate herself on the practice court. This cycle can only lead to success for the team as well as the player. In club volleyball, there is no guaranteed court time for any player during a tournament, though it is hoped that there will be an opportunity for all players to gain some “on court” experience during the course of the season. It is the coaches’ decision on lineup and playing time. **As a parent you are paying for instruction, not playing time.**

**Training:** All teams practice 3 times , if Elite has a tournament it is two times. On Average 4- 6 hours of training per week. We offer a Mental Training Program at no additional charge. Small and group sessions are available.
