

Our experience with Xcel this season has been truly remarkable. Kelley has played for three different clubs in the Bay Area and we have found Xcel to be the most organized and professional. Everyone involved in the program from travel organizers to recruiting specialists to coaches communicate so openly and often with parents and players. This communication amongst personnel and families made the transition very easy for all of us.

Kelley left a team that was ranked #3 in Open Division to play for Andy and Jeremy. Kelley had initiated contact with Andy and he invited her to open gyms. Kelley joined the 18's team and never looked back. Practices were always productive and consistent. Kelley was also so excited because she finally got a coach that works on hitting technique! Kelley's hitting improved greatly this season.

Andy had high expectations of the girls and they all responded. He was very positive and encouraging on the court, working to get the most from every player on the team.

I could say a lot more, Andy, on how great the experience was for Kelley and Mike and I. thank you so much for helping Kelley!

Julie
